**MEMORANDUM FOR: Executive Director-Comptroller**

**Red:**

25X1A

I have had a personal talk with [REDACTED] and made it clear that the judgment he exercised with Mr. Martin Weil was not the best and contrary to our regulations. I don't believe we will have a recurrence of this type of situation.

We have accepted your suggestion and are in the process of bringing the regulatory issuances you refer to in your note to the attention of every Directorate employee by a specific notice.

MEMORANDUM FOR: Deputy Director for Science & Technology

Bud:

25X1A I note that Howard Osborn furnished you an information copy of his 10 February 1966 memorandum to me concerning Martin Weil's 5 February article in the Washington Post entitled "U. S. Easily Intercepts Luna Photos, But Officials Won't Admit Doing It." It seems clear from Howard's memorandum that [REDACTED] has not seen or does not understand the official Agency issuances regarding contact with public information media.

I suggest you satisfy yourself that this situation is corrected without delay. Further, it might be worthwhile to refer to my memorandum of 26 November 1965 to the Executive Committee on press contacts and to require personnel of the DD/S&T to refresh their memories again on this subject.
